"I discovered UniAthena with an offer more than perfect for my professional situation and schedule, an accredited university that adapts to me; therefore, I seized the opportunity."

Fikeu Francky Vivier

Project Manager

Master in Construction Management
Batch 2021 | South Africa

Hello, my name is Fikeu Francky Vivier from Cameroon. I am an expert consultant in factory architecture, mainly in the field of food processing. I am a co-founder and general manager of a construction company. Our expertise is in the construction and manufacture of metal structures based in Guinea Conakry.

Initially, the nature of my work did not allow me to follow my passion because of my constant movement. Then I discovered UniAthena on Facebook with an offer more than perfect for my professional situation and schedule, an accredited university that adapts to me; therefore, I seized the opportunity. My current training is in construction management at the Master level; already at the last module, and I don't plan to end there with the support of my personal tutor.

Having French as my first language, I thought the English language would be a little complex for me to understand, but the courses were explained in plain and simple language. The teachers speak calmly and are well audible. The tutor is more than attentive. Without the support of my tutor, I would have stopped at the first module, but he encouraged me a lot. I can proudly say that UniAthena is my best academic experience. I really hope to meet my teachers to better express my gratitude.
